

REMARKS

Applicant would like to thank the Examiner for the courtesy he extended during the telephonic communications and his voicemail message of August 1, 2008. As the Examiner stated in his voicemail message of August 1, contrary to the Advisory Action of July 30, the wording of claim 42 has not changed and is allowable as written. To move prosecution forward, Applicant has amended claims 27 and 37 to recite “high enough field strengths” as requested by the Examiner. Applicant has not relinquished any subject matter by way of the amendment. Applicant respectfully submits the claims are now in condition for allowance.

CONCLUSION

As agreed to in the Examiner's voicemail message of August 1, Applicant respectfully requests entry of the amendment dated July 9, 2008 and the amendment submitted herewith.

Applicant submits that this Amendment After Final and the accompanying Remarks do not raise new issues for consideration or necessitate the undertaking of any additional search of the art by the Examiner. This Amendment After Final should therefore allow for immediate action by the Examiner.

Applicant also submits that entry of this Amendment After Final and the accompanying remarks would place the present application in better form for appeal, should the Examiner dispute the patentability of any of the pending claims.

On the basis of the foregoing Amendments and remarks, Applicant respectfully submits that the pending claims of the present application are allowable over the prior art of record. Applicant thus respectfully requests that the pending claims be allowed by the Examiner. Favorable consideration and timely allowance of this application are respectfully requested.

In the event that the application is not deemed in condition for allowance, the Examiner is invited to contact the Jeremy Merling at (212) 408-2574 to advance the prosecution of this application.

Respectfully submitted,
BAKER BOTTS L.L.P.
